SUMMARY

A Freelance Researcher, Data Analyst (Quantitative and Qualitative), Data Collection and Entry Expert, A Transcriber, Data Scientist, Python Programmer, Machine Learning Engineer a Remote Worker with over 5 years of experience in different research and analytical works (both Qualitative and Quantitative). My goal is to become associated with a company/organization where I can utilize my skills and gain further experience while enhancing the company's productivity and reputation.

WORK EXPERIENCE

Sep.2023-Present

BLUEHOUSE TECHNOLOGIES
Lead Data Scientist
As the Lead Data Scientist at Bluehouse Technologies, I play a multifaceted role in driving data-driven initiatives forward. I lead projects, develop strategies to achieve business goals, and optimize machine learning models for maximum effectiveness. Manage data quality and communicating insights to stakeholders. I stay abreast of industry trends, collaborate across teams, ensure ethical standards, and mentor junior data scientists to foster growth and excellence within the organization. I leverage data as a strategic asset, guiding our company towards innovation, efficiency, and sustainable growth.

Jul.2023 - Nov.2023

10ALYTICS ED-TECH HUB
Full Stack Data Science Facilitator
Responsible for instructing and guiding fellows in the end-to-end data science process. Using Python Programming Language, I emphasized meticulous data collection and preprocessing, provided comprehensive training on exploratory data analysis and predictive model development. Facilitated seamless model deployment and integration while mentoring fellows in performance monitoring and optimization. Actively fostered a data-driven culture and communicated technical concepts to non-technical stakeholders.

Sep.2022-Present

PICTDA (PLATEAU STATE INFORMATION AND COMMUNICATION TECHNOLOGY DEVELOPMENT AGENCY). Jos, Plateau State.
Data Science Instructor
Working as a Data Science tutor for Code Plateau Tech Hub, A unit of PICTDA saddled with the responsibility of teaching and training individuals who have interest in the tech field with programs such as Data Science, Blockchain Technology, Software Engineering, Digital Marketing, UI/UX etc.

COMPUTER PROFICIENCY
